

information board PROVENCE (with or without roof)

weight = approx..70 kg

weight = approx..108 kg

Description :

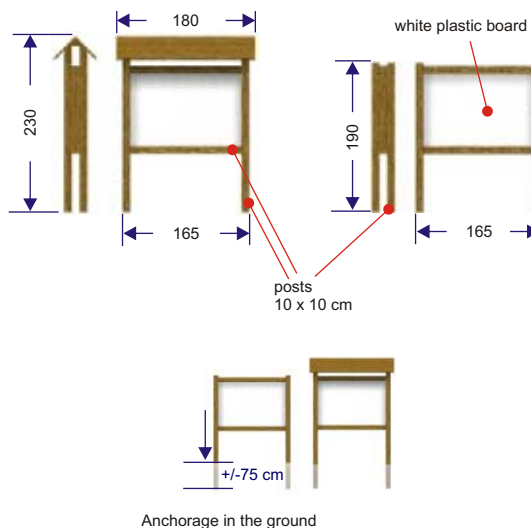

Information board consisting of two 10 x 10 cm standards between which 2 horizontal 10 x 10 cm posts are mounted. The 2 standards and the lower post are reinforced by means of a milled-in galvanised strip. Mounted between the posts is a white plastic board with a useful surface of 115 x 95 cm. The whole can be finished off with a little roof consisting of two halves of two 22 mm tongue and groove boards mounted on the standards.

information board KENT (with or without roof)

weight = approx..145 kg

weight = approx..188 kg

Description :

Information board consisting of 2 double standards between which a frame is mounted. The standards as well as the frame are made up of 10 x 10 cm posts. The lower post of the frame is reinforced by means of a milled-in, galvanised strip. Mounted in the frame is a white plastic board with a useful surface of 145 x 95 cm. The whole can be finished off with a little roof consisting of two halves of three 22 mm tongue and groove boards mounted on the standards.

properties / material / look / maintenance

The boards are made of high quality recycled plastic, mass coloured : durable, weather-resistant, low maintenance, rotproof, recyclable.

All metal fixing materials and parts are galvanised.

The surface is knot free, evenly coloured and shows a faced, slightly shining structure.
