

litterbin SQUARE

weight = approx. 80kg

Description

Square litterbin with a hinged lid provided with a lock and key. The lid consists of a 10 mm thick plastic plate with a honeycombed surface and has a round opening with Ø 12 cm. The litterbin is made up of four 2 mm thick brushed stainless steel plates against which an upside-down U-shape of 6 x 12 cm recycling profiles is mounted to the front and back. The ends of the profiles are connected under a 45° angle by means of 3 mm thick brushed stainless steel plates. The two sides of the litterbin consist of vertical 6 x 12 cm recycling profiles mounted on the 2mm thick brushed stainless steel plates with a 20 mm distance between them. The litterbin contains a 70 L round, galvanised inner bin and is provided with a handle.

Anchorage

The litterbin is provided underneath with a 12 mm hole for mounting a steel wire-bar (M12, 50 cm) for concrete anchorage. Cf. separate schedule on anchorage.

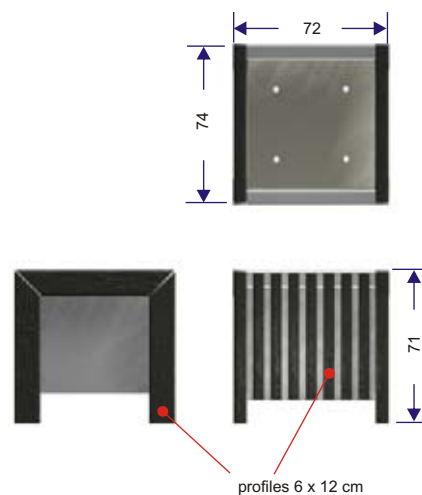

flower box PLAZA

weight = approx. 87kg

useful planting depth : 60 cm
