SEATING AREAS

flower box MILANO

Description

The 60 x 60 x 62 cm square flower box has a base of four 10 x 10 cm corner posts. The corner posts are provided with grooves between which 3.5 cm high x 10 cm wide horizontal boards are screwed. The top is provided with a rounded 3.5 x 10 cm finishing board. The bottom consists of a 10 mm thick plastic sheet with drainage holes and is supported by a cross bar. Useful planting depth 39 cm, weight approx. 56 kg. Colours : black, brown, grey, green or a combination of 2 colours. The flower box is provided with a milled-out groove and two nut holes for the assembly of a combination seat.

flower box Vienna

Description

The hexagonal flower box ø 80 x 64 is made of 4 x 12 cm boards. These boards are screwed together on the inside with metal corner profiles. The top is provided with a 5 cm wide and 3.5 cm high rounded finishing board. The bottom consists of a 10 mm thick plastic sheet with drainage holes and is supported by a cross bar. The flower box is provided with 3 legs of 4 cm thick by 12 cm high. Useful planting depth 39 cm, weight approx. 46 kg. Colours : black, brown, grey or green. The flower box is provided with a milled-out groove and two nut holes for the assembly of a combination seat.

combination seat

Description

Seat for assembly between two flower boxes, consisting of three 5 x 12 x 180 cm boards. The boards are individually reinforced underneath with a countersunk metal profile. Both sides of the boards are fixed to a galvanised T-profile. With this T-profile, the seat is mounted onto the flower box by means of two nuts. Weight approx. 35 kg. Colours : black, brown, grey or green. Seat height 45 cm.

combination seat with one leg

Description

Seat provided with a bench leg on one side, consisting of three 5 x 12 x 180 cm boards. The boards are individually reinforced underneath with a countersunk metal profile. On one side, the boards are supported by the bench leg and on the other side, they are mounted onto a galvanised T-profile. With this T-profile, the seat is mounted onto the flower box by means of two nuts. Weight approx. 42 kg. Colours : black, brown, grey or green. Seat height 45 cm.

corner bench

Description

90° corner bench on a central bench leg. Both ends of the corner bench are mounted onto a flower box. The seats consist of three 5 x 12 x 180 cm boards. The boards are individually reinforced underneath with a countersunk metal profile. On one side, the boards are supported by the central leg and on the other side, they are mounted onto a galvanised T-profile. With this T-profile, the seat is mounted onto the flower box by means of two nuts. Weight approx. 70 kg. Colours : black, brown, grey or green. Seat height 45 cm.

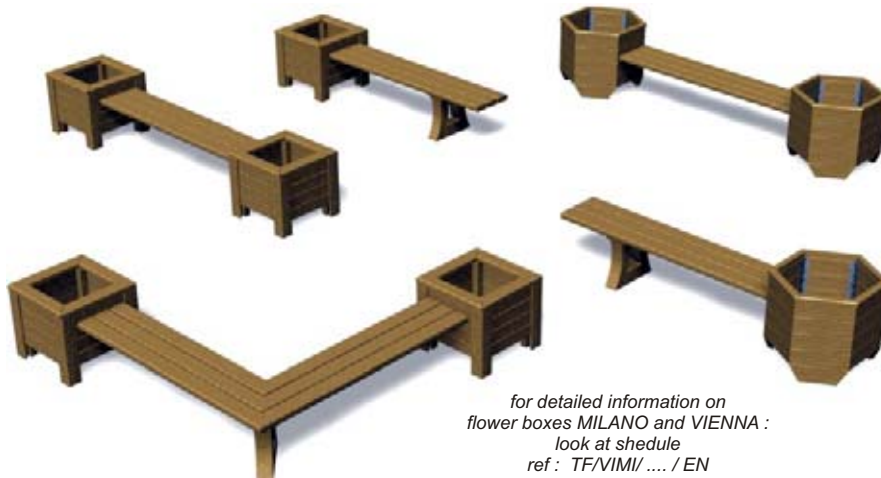

Combinations with other flower box types and/or other dimensions are available on request

Assembly by means of T-profile and nuts

The bench legs are provided underneath with a 12 mm hole for fixation with a wire-bar (M12, 50 cm) for anchorage. Cf. separate schedule on anchorage.
